Contents of Volume 10

A rapid technique for normalizing scores by W. Tauss, 79

PERCEPTION AND PERFORMANCE

A serial effect in time estimation by M. Coltheart and G. von Sturmer, 283

VISION

Overestimation of vertical movement by A. A. Landauer, C. A. Rhine and L. Rumiz, 59

Individual differences in figural aftereffect potency: After-effect trace vs immediate stimulus context as a determiner of perception by L. Immergluck, 203

Change in judgment of direction of gaze after autokinetic perception by M. J. DeSisto and S. C. McLaughlin, 221

Adaptation to prismatically induced curvature with nonvisible arm movements by C. A. Burnham, 273

Image fragmentations with after-images and in binocular rivalry by P. K. Smith, 275

Accuracy in size judgments as a function of location in the visual field and the duration of viewing by A. S. Rodwan, 277

Figural aftereffects, illusions and the dimension of field dependence by A. W. Pressey and Golda Koffman, 279

A steep backward masking curve by F. J. Lillie and J. A. Gribben, 281

A developmental study of long-term memory in the perception of apparent movement by L. M. Raskin, 397

SKIN SENSES

Form discrimination as a function of sex, procedure and tactual mode by G. M. Vaught, 151

Pain attenuation by contralateral cold stimulation by B. Blitz and A. J. Dinnerstein, 395

PERFORMANCE

Stimulus duration and the human heart rate response by D. B. D. Smith and Phyllis J. Strawbridge, 71

The effect of hypnotically induced fatigue on reaction time by C. Graham, R. A. Olsen, M. Parrish and H. W. Leibowitz, 223

Effects of a "boredom" treatment on children's simple RT performance by G. N. Cantor, 299

Performance effects of massed and distributed practice upon constant and variable forms of the letter-pathways test by W. E. Roweton, 333

Simple visual and simple auditory reaction time: A comparison by R. Elliott, 335

Reaction time as a function of noncontingent reward magnitude by N. A. Stillings, G. A. Allen and W. K. Estes, 337

PREFERENCE

Preference for different auditory stimulus sequences in various age groups by E. E. Boesch, P. B. Baltes and L. R. Schmidt, 205

The importance of symmetry and complexity in the evaluation of complexity, interest and pleasingness by H. Day, 339

Speed of choosing in relation to the preference value of the incentive by P. S. Siegel, Joann Williams and Sandra Szabo, 405

OBSERVING BEHAVIOR

Effect of novelty on stimulus selection in children by B. T. Leckart, Bette Briggs and Jeanne Kirk, 139

The effects of repeated exposure and stimulus complexity on visual fixation in infants by Rose F. Caron and A. J. Caron, 207

DETECTION

A study of detection, search, matching, and memory functions by M. S. Mayzner, M. E. Tresselt and J. Pezenik, 217

Visual and auditory signal detection by C. Cheney and P. Eaton, 301

HUMAN LEARNING AND THINKING

CONDITIONING

Mediated generalization: Replicated and reinterpreted by J. J. Franks and J. J. Jenkins, 65

The effect of paired neutral stimuli on the acquisition and extinction of the classical eyeblink response by M. Ominsky and G. M. Posnick, 67

Intradimensional and extradimensional shift performance of children in a differential conditioning task by H. L. Garber and L. E. Ross, 69

Effect of CS quality on human foot withdrawal conditioning by R. P. Gruber and D. R. Reed, 195

Expectancy, anxiety, and the GSR by D. L. Streiner and S. J. Dean, 293

The interaction of habit (H) and drive (D) in classical eyelid conditioning: H as a function of UCS intensity and trials, D as a function of UCS intensity and anxiety by J. J. Porter and J. J. Hug, 399

REINFORCEMENT

The role of the approach response in secondary reinforcement by Nancy A. Myers and Mona Morningstar, 77

Effects of a memory aid in probability learning by J. R. Erickson, J. W. O'Hara and Mari R. Jones, 137

The utility of event variability in two choice probability learning by J. Halpern, M. Dengler and Z. J. Ulehla, 143

Children's reactions to nonreward: Partial vs continuous reinforcement using a within-subjects design by I. J. Semler and D. R. Pederson, 285

DISCRIMINATION LEARNING

Crossmodal transfer of form discrimination in preschool children by Marion Blank, L. Doris Altman and W. H. Bridger, 51

Temporal variables in the acquisition of human free-operant avoidance of "time out" by L. E. Hogan, A. Baron and A. Kaufman, 57

Effects of incidental training and reinforcement on mixed schema learning by E. M. Edmonds and M. R. Mueller, 75

An application of adaptation-level theory to transposition responses in a conditional discrimination by J. Capehart and V. Pease, 147

Developing sensitivity to correlated cues by H. Munsinger, 149

VERBAL LEARNING

Facilitative effects of stimulus familiarization on paired associates verbal learning by Hildegard Corbet and Marilyn E. Marshall, 43

Cue selection in paired-associate learning: Meaningfulness and position by E. A. Lovelace, 45

Paired associate learning of function words by R. Kanungo, 47

A comparison of the effectiveness of word imagery and meaningfulness in paired-associate learning of nouns by P. C. Smythe and A. Paivio, 49

The effects of electric isolation in serial learning by D. C. Raskin, M. Hattle and E. W. Rubel (Vol. 8, p. 413)

Comment by L. G. Lippman and Marcia Z. Lippman, 130
Reply by D. C. Raskin and E. W. Rubel, 136
Effect of successive lists on the parameters of a paired-associate model by J. H. Mueller and I. D. Nahinsky, 145
Informative feedback conditions and verbal-discrimination learning in elderly subjects by D. H. Kausler and C. V. Lair, 193
The role of response-produced cues in paired-associates transfer as a function of intralist stimulus similarity by D. M. del Castillo and H. C. Ellis, 197
Influence of two guidance techniques on verbal learning by J. B. Sidowski and M. Greene, 199
The role of test trials in paired-associate learning by G. L. Belenky and M. Cole, 201
Intralist categorization in paired-associate learning by S. C. Brown and J. F. Sanford, 345
Locus of facilitation for paired-associate learning under fixed-order presentation by S. J. Samuels and W. E. Jeffrey, 355
On constant time to learn: A proposed modification of function by Gloria J. Fischer, 357

MEMORY

Reciprocal facilitation and impairment of free recall by J. Brown, 41
When is recall higher than recognition? by E. Tulving, 53
The modification of short-term memory through instructions to forget by R. A. Bjork, D. LaBerge and R. Legrand, 55
Delayed retroactive inhibition with categorized lists by E. Winograd, 127
Associative transfer as a function of conceptual similarity of stimuli in pre-school aged children by L. E. Price and Anne C. Saravo, 131
Associative asymmetry in paired associate to serial transfer by D. L. Horton and D. E. Grover, 133
Input modality and the serial position curve in short-term memory by R. Conrad and A. J. Hull, 135
Generalization training in word recognition by R. D. Petre, 141
Negative transfer as a function of preliminary learning and degree of first task mastery by A. D. Neiberg, 209
Absence of within-list PI and RI in short-term recognition memory by G. H. Bower and A. Bostrom, 211
Repeated items and decay in memory by J. Morton, 219
A method for observing rehearsal and natural language mediation in short-term memory by R. O. Blackwood and J. M. Link, 287
An experimental study of a mnemonic system by R. J. Senter and G. K. Hauser, 289
Arousal and memory: A comment by S. Kaplan and Rachel Kaplan, 291
Interitem time distribution and response compatibility in the short-term serial retention of digits by G. J. Harris and B. Lown, 295
STM abilities in LTM tasks by S. F. Ryan and A. E. Whimbey, 297
The role of phrase structure in the recall of meaningful verbal material by J. M. Anglin and G. A. Miller, 343
The temporal course of extra-experimental interference from verbal habits by D. E. Pryor and K. A. Blick, 349
Effects of hypnotically controlled strength of registration vs rehearsal by G. S. Blum, 351
Types of error in free recall by F. I. M. Craik, 353
The influence of word-knowledge on the word-frequency effect in recognition memory by L. R. Allen and R. F. Garton, 401

VERBAL PROCESSES

Consonant discrimination by seven year olds: A pilot study by R. S. Tikofsky and J. R. McInish, 61
Speech disturbance and length of utterance by M. Cook, 125
Generated meaningfulness of single letters as a function of position in CVC trigrams by C. F. Nodine and J. V. Hardt, 129
Intraverbal associations in sentence behavior by J. L. Prentice, 213
Interlingual interference in a color-naming task by E. C. Dalrymple-Alford, 215
Minimal contrast in artificial word associations by C. A. Perfetti, 229
A 3 min reasoning test based on grammatical transformation by A. D. Baddeley, 341

PROBLEM SOLVING

Salience and learning rate in concept identification by B. D. Downing, 73
Hypothesis sampling in successive solutions of a concept-ID task by Vesta S. Gettys and C. F. Gettys, 121
The function of stimulus predifferentiation pretraining in complex problem-solving by M. L. Schroth, 123
Concept learning with three types of verbal labels by W. E. Stephens, 225
Effects of stress on risk taking by A. Lieblich, 303
The relationship between rote learning and mediated and nonmediated concept learning by L. I. Jacobson, J. J. Elenewski and D. S. Lordahl, 347
Stimulus memory in concept attaiment by R. L. Dominowski, 359

SOCIAL PROCESSES

The logical consistency of person perception by D. A. Summers and G. R. Oncken, 63
Differentiation among targets in social perception as a function of response hierarchy by M. F. Kaplan, 227
The effects of competence and social class on degree of modeling of self-reward patterns by H. A. Colle and Helen L. Bee, 231
Conformity as a function of experimentally induced minority and majority competence by P. R. Costanzo, H. T. Reitan and M. E. Shaw, 329
A multidimensional scaling evaluation of alternative models in personality impression formation by J. T. Partington and D. N. Jackson, 331
Resistance to threat by D. S. Dustin and T. B. Arthur, 403
Subject-model sexual status and observer performance by H. C. Rickard and C. E. Joubert, 407

PHYSIOLOGICAL PSYCHOLOGY

EEG correlates of reinforced behavioral inhibition by N. Weinberger, L. Yeudall and D. B. Lindsley, 11
Electroconvulsive shock induced amnesia and recovery by Anne Geller and M. E. Jarvik, 15
UCS effects on ulceration following fear conditioning by W. L. Sawrey and J. M. Sawrey, 85
Tube feeding: Intestinal factors in gastric loading by S. Balagura and H. C. Fibiger, 373
Endocrine factors in palmar skin potential by D. C. Fowles and P. H. Venables, 387
A new technique for conditioned hypoglycemia by S. Woods, W. Makous and A. Hutton, 389

BRAIN LESIONS

Effects of lesions in hippocampus-entorhinal cortex on maze performance and activity in rats by R. M. Bender, Gayle Hostetter and G. J. Thomas, 13
Effect of EVA lesion on reversal learning in the dark by A. B. Carran and L. E. Anderson, 91
Effects of unilateral hypothalamic lesions on drinking and

self-stimulation in the rat by A. G. Phillips and G. J. Mogenson, 307
The effects of amygdalectomy on shock-induced fighting behavior in rats by D. M. Finch, R. S. Surwit and R. R. Johnson, 369

BRAIN STIMULATION
The effect of lever retraction on resistance to extinction of a response rewarded with electrical stimulation of the brain by R. Gandelman, J. Panksepp and J. Trowill, 5
Are the cerebral ventricles involved in thirst produced by a cholinergic substance? by R. D. Myers and T. J. Cicero, 93
Discrimination learning as a function of the duration of rewarding hypothalamic stimulation by E. P. Lindholm and R. E. Keesey, 153
Cholinergic stimulation of medial septum by E. G. Greene, 157
Effect of subreinforcing intracranial stimulation on extinction by J. P. Huston and B. J. Pressman, 305
ICS reinforcement of DRL behavior in the rat by J. A. Owens and D. L. Brown, 309

DRUG AND CHEMICAL EFFECTS
The effect of carbon dioxide on spontaneous locomotor activity in normoxic and hypoxic atmospheres by M. J. Gerben, 17
The depression of operant behavior and retarding action on discrimination learning by amphetamine by S. O. Cole, 19
Activity and brain amine metabolism in strains of normotensive and hypertensive rats by R. Laverty, 25
The effect of magnesium pemoline on learning an active avoidance-passive avoidance discrimination by T. C. Chase and R. A. Rescorla, 87
Magnesium pemoline and EEG sleep patterns in man by F. Baekeland and R. Lasky, 89
Concurrent facilitation of food-reinforced, spaced licking and depression of schedule-induced, polydipsic licking by amphetamine by Evalyn F. Segal and D. L. Oden, 155
Further on the effects of ether anesthesia following one-trial discriminated avoidance learning by M. D. Suboski, J. Litner and M. Black, 161
Detection of RNA species unique to a behavioral task by B. Machlus and J. Gaito, 253
Effects of sensory deprivation and hydroxyzine on rats' bar pressing by V. Pishkin, Elizabeth A. Rasmussen and Carla R. Duke, 255
Magnesium pemoline effects on drl performance by Y. Filby and Lucille Frank, 265
Amphetamine-induced freezing in a food-motivated operant task by S. O. Cole, 269
Some observations of the effects of stress upon cortico-steroid excretion rates in the urine of scuba divers by M. Hammerton and Mary C. Lobban, 325

ANIMAL PSYCHOLOGY

ACTIVITY
Detection of estrous activity cycle by 1-hour samples of running behavior by J. C. Hitt, A. A. Gerall and G. W. Giantonio, 159
Cage activity in the Virginia opossum by Donna M. Cone and A. L. Cone, 259

EMOTIONAL BEHAVIOR
Open field behavior of the Mongolian gerbil by D. J. Nauman, 163
Fighting by *Betta splendens:* Effects on aggressive displaying by conspecifics by R. Baenninger, 185
Schedule factors in the emission of distress calls by H. S. Hoffman and J. W. Stratton, 251
The relatedness of the emotionality variables by D. L. King, 367
Two tests of a fear-motivated theory of exploration by D. Lester, 385

MOTIVATION
Body weight loss as a measure of motivation in thirsty guinea pigs by G. Collier, D. Levitsky and Carla Weinberg, 27
Extinction of the consummatory response to a saccharin solution by R. Foster, 81
The reward value of saccharin solution prior to eating experience by R. Foster, 83
Excessive drinking in rats' adaptation to the schedule of feeding by J. H. Reynierse and D. Spanier, 95
Why does a variety of measures of thirst yield different results? An explanation developed by studying the effect of an aversive factor on liquid intake in rats by S. Hsiao and C. Rasmussen, 97
Intersubject and intrasubject variability in the consumption of alcohol by R. J. Senter, E. O. Eimer and C. L. Richman, 165
Intake of paired sucrose solutions in long and short tests by D. H. Owings and R. B. Lockard, 167
Water deprivation and shock thresholds by R. J. Blanchard, M. Hayashi and Gloria Reyes, 169
Alcohol consumption in domestic and wild rats by E. O. Eimer and R. J. Senter, 319

VISION
Color vision in tree squirrels by K. M. Michels and Anne W. Schumacher, 7
The effect of previous visual experience upon the response to depth in domestic chickens by L. Krames and W. J. Carr, 249
Deficit in depth perception of 90-day-old dark-reared rats by R. D. Walk and Elizabeth K. Bond, 383

CONDITIONING
The second-order conditioning of fear in rats by A. C. Kamil, 99
The effects of different interpolated ITI stimulus-conditioned stimulus intervals on the acquisition of the classically conditioned nictitating membrane response of the rabbit by J. D. Papsdorf and N. M. Kettlewell, 171
Block of fear conditioning induced by habituation or extinction by R. C. Leaf, R. J. Kayser, J. S. Andrews, Jr., J. W. Adkins and Susan R. P. Leaf, 189
Toxiphobia for odors by J. F. Pain and D. A. Booth, 363

MAZE LEARNING
Spontaneous alternation in *Mesocricetus auratus:* Age differences by R. J. Kirkby and G. H. Lackey, 257
Proactive interference for maze habits in the rat by M. Cole and D. Hopkins, 365

DISCRIMINATION LEARNING
Spectral generalization testing with pigeons using brief discrete trials by M. K. Holland and W. M. Baker, 1
Spectral generalization gradients from pigeons as a function of response latency by W. M. Baker and M. K. Holland, 3
Early versus late introduction of stimuli in psychophysical discriminations by pigeons by T. L. Mentzer, 9
A further investigation of an observing response analysis of fixed-ratio discrimination by S. B. Kendall, 101
Discriminative control by d1-amphetamine and saline of lever choice and response patterning by R. T. Harris and R. L. Balster, 105
Intermixture of positive and negative trials in instrumental discrimination by J. W. Davenport and W. W. Hagquist, 173
S-R separation with monkeys by D. L. Medin, 247

Discrimination reversal following learning without "errors" by G. Marsh and R. Johnson, 261
Observational learning vs shaping: A replication by R. W. Powell, 263
Positive behavioral contrast: Development within sessions by G. S. Reynolds, 321
Negative contrast after prolonged discrimination maintenance by G. S. Reynolds and A. J. Limpo, 323
Spatial discrimination learning in young chicks by J. F. Zolman and D. Becker, 361

AVOIDANCE AND PUNISHMENT

Rapid discriminated bar-press avoidance through avoidance shaping by J. D. Keehn and C. D. Webster, 21
Discriminated avoidance conditioning: CS function during avoidance acquisition and maintenance by G. B. Biederman, 23
Discontinuous shock and generalization to the preshock period in discriminated avoidance learning by J. H. Hess and J. N. Shafer, 175
Punishment effects in rats selectively bred for emotional elimination by D. P. Ferraro and Kathleen M. York, 177
A comparison of different types of intermittent shock schedules by M. H. Kleban, 179
Acquisition of a jumping avoidance response in hamsters by B. E. Sandler and G. G. Karas, 191
Effects of early experiences on one-trial avoidance conditioning by R. Ader and Arlene Schaefer, 235
Self-punitive behavior and periodic punishment by R. C. Martin and Theresa L. Moon, 245
Prolonged aftereffects of a single foot shock by R. J. Blanchard, T. E. Dielman and D. Caroline Blanchard, 327
Postshock crouching: Familiarity with the shock situation by R. J. Blanchard, T. E. Dielman and D. Caroline Blanchard, 371
Role of docility in avoidance: Gerbils and kangaroo rats in a shuttlebox by R. Boice, Carol Boice and A. E. Dunham, 381

REINFORCEMENT

Sand-digging in mice: Functional autonomy? by E. Fantino and M. Cole, 29
The relative effects of nonreward and response thwarting on the frustration effect by V. Di Lollo, R. C. Davidson, G. R. Hammond and R. J. Donovan, 31
Response rate and varied reinforcement: Reinforcers of similar strengths by W. M. Steinman, 35
Response rate and varied reinforcement: Reinforcers of different strengths by W. M. Steinman, 37
The role of contingencies in the control of behavior by Diane D. Edwards, J. R. West and Virginia Jackson, 39
Motivational properties of nonreward by R. S. Tacker and Joyce Way, 103
Confinement duration on rewarded and nonrewarded trials and patterning at 24-hour ITI by C. T. Surridge and A. Amsel, 107
The frustration effect as a function of runway length by T. Clifford and R. H. Schindelheim, 109
Chain DRL behavior in rats by G. H. Trumbule, R. W. Switalski and Florence Gilbard, 111
Classical conditioning of excitement anticipatory to food reward: Partial reinforcement by E. Zamble, 115
The effect of varied reinforcement training on behavior following incentive reduction by S. F. Davis and A. J. North (Vol. 9, 395)
Erratum, 116
Reinforcement rate and immediacy of reinforcement as factors in choice by M. C. Davison, 181
Effects of reinforcement magnitude during successive reinforcement-punishment cycles by D. P. Ferraro and D. Perkins, 183
Erratum, 322
Predictability and number of pairings in the establishment of a secondary reinforcer by B. L. Jacobs, 237
Stimulus or stimulation: Relevant cues in a learning situation involving differences in light reinforcement by E. Weldon, 239
Matching as a group phenomenon by R. A. Weitzman and P. M. Guthrie, 311
Effort and response rate by T. F. Elsmore and A. J. Brownstein, 313
Sensory reinforcement and response facilitation by G. Lowe and D. I. Williams, 315
The influence of maturation upon sensory reinforced behavior of chicks by M. E. Meyer, 317
Reinforcing properties of conspicuous objects before imprinting has occurred by P. P. G. Bateson and Ellen P. Reese, 379

EXTINCTION

Spontaneous recovery as a function of fixed ratio by M. J. Fischer and M. Cole, 33
Occurrence of the partial reinforcement extinction effect after only one NRNR sequence of trials by J. Bowen and G. McCain (Vol. 9, 15)
Erratum, 38
The facilitory effects of shock and sensory deprivation on bar-pressing during extinction by A. R. Miller, R. A. Stewart and V. L. Kiker, 113
An experimental test of the interfering-response theory of extinction by M. H. Marx, 233
Recovery from latent extinction by W. J. Wilson and T. A. Peters, 241
Resistance to extinction as a function of nonresponse incentive shift by D. G. Davenport and J. H. Mueller, 243
Effect of partial reinforcement trial sequences on extinction performance by J. E. Spivey and D. T. Hess, 375
Influence of partial reinforcement pattern and intertrial reinforcement on extinction performance following abbreviated training by J. E. Spivey, D. T. Hess and Diane Black, 377

SOCIAL BEHAVIOR

Social dominance and motivational variables in rats by S. Hsiao and S. C. Schreiber, 117
Adaptation to the dominance tube by W. J. Wilson, 119
Conditioned fighting and dominance in pigeons by F. N. Willis, Jr., and A. R. Lumia, 187
Social facilitation of eating behavior in young opossums II. The effects of isolation by J. J. Platt, L. W. Sutker and W. T. James, 267
Shock-induced fighting as a function of the intensity and duration of the aversive stimulus by P. I. Dreyer and R. Church, 271
Gregariousness in young rats by J. M. Salazar, 391

Contents of Volume 11

PERCEPTION AND PERFORMANCE

PERCEPTION AND PERFORMANCE

Predicting with intuitive correlations by C. W. Gray, 41

The probability of an event and estimates of posterior probability based upon its occurrence by C. F. Gettys and C. W. Manley, 47

Forced-choice technique: Inter-alternative comparisons by W. H. Watkins and H. J. Clark, 351

Higher order experimental designs viewed as developments of the one-way analyses of variance by P. L. Van Houten and M. F. Zwosta, 361

VISION

The effect of movement on the perceived brightness of chromatic afterimages by J. G. Seamon and L. W. Teft, 43

Judged complexity as a function of schema related variables by S. H. Lane and S. H. Evans, 45

Retinal rivalry and Troxler's effect by A. G. Goldstein (Vol. 7, p. 427)

Comment on Goldstein: Retinal rivalry and Troxler's effect by B. Kirkwood, 54

Reply to Kirkwood by A. G. Goldstein, 54

Effects of an artificial pupil in visual perception by D. L. Schurman, 57

Surface and volume judgments of three-dimensional shapes by R. J. Stanek, 121

Measurements of Troxler's effect by D. B. Poe and H. F. Crovitz, 123

A sex difference in the recognition level of words by L. A. Messé, P. R. Chisena, Jr., and R. H. Shipley, 131

The effects of situational and personal variables on vertical autokinesis by M. Worthy and G. Kahn, 144

The effect of short-term sensory restriction on the tachistoscopic recognition threshold by S. L. Milstein, D. Oleson, and J. P. Zubek, 193

The effects of stimulus density on orientation specific aftereffects of color adaptation by L. W. Teft and F. T. Clark, 265

Visual beats: Phenomenology and preliminary data as a function of age by R. Karrer, 269

The vestibular hypothesis of the moon illusion by R. J. Wood, P. W. Zinkus, and P. T. Mountjoy, 356

Cortical potentials evoked by the onset and the termination of foveal stimulation by N. R. Bartlett and C. T. White, 357

Vision and lasers: An abstract by W. L. Makous and J. D. Gould, 358

Figural aftereffects, illusions and the dimension of field dependence by A. Pressey and G. Koffman (Vol. 10, p. 279)

Comment on "Figural aftereffects, illusions and the dimension of field dependence" by L. Immergluck, 363

A reply to comments on "Figural aftereffects, illusions and the dimension of field dependence" by A. W. Pressey, 364

HEARING

Estimated duration of an auditory signal as a function of its intensity by I. Zelkind and J. Ulehla, 185

Effect upon auditory interval discrimination by perturbations in the nanosecond region by I. Pollack, 189

PERFORMANCE

Cross-modality effects upon choice reaction time by L. K. Morrell, 129

Color-word performance as a joint function of manifest anxiety and stimulus conflictfulness by K. R. Gamble, 187

Performance of lower- and middle-class children on a discrimination reversal task by S. Dietz and J. W. Johnson, 191

Dissonance arousal, task evaluation, and task performance by M. S. Pallak and C. A. Kiesler, 197

Children's response speed as a function of delay of reward at different distances from the goal and incentive value by A. A. Sheikh, 201

Dream time and real time by D. Koulack, 202

Inter-trial response strategy in operative time estimation by M. J. Ellis and M. G. Wade, 203

Low intensity conflict by C. W. Deckner, 204

Thresholds of control-display lag as a function of display movement rates by J. A. Steger and H. Sherman, 267

Cardiac response to mental arithmetic under quiet and white noise distraction by W. G. Steele and P. B. Koons, Jr., 273

A longitudinal study of the cardiac response during a problem-solving task and its relationship to general cognitive function by W. G. Steele and M. Lewis, 275

Vigilance throughout seven days of sensory deprivation by E. Johnson, III, S. Smith, and T. I. Myers, 293

The influence of two varieties of proprioceptive information on judgments of the spatial position of an object while the visual input is transformed by G. Singer, 295

PREFERENCE

Preference for different visual stimulus sequences in children, adolescents, and young adults by P. B. Baltes, L. R. Schmidt, and E. E. Boesch, 271

Response technique as a factor in determining children's preference for complexity by D. W. Kaess and M. W. Weir, 367

HUMAN LEARNING AND THINKING

REINFORCEMENT

The effects of calling "right" and "wrong" on neighboring response by A. B. Carran, 125

Operant reinforcement of a skeletally mediated autonomic response: Uncoupling of the two responses by R. J. Gavalas, 195

Probability learning as related to the response format used by L. J. Kazmier, 199

Effects of alcohol on the partial reinforcement effect by A. Taylor, R. Lehr, D. F. Berger, and C. A. Terry, 371

LEARNING

The relative crossmodal transfer of a form discrimination by R. Eastman (Vol. 9, p. 197)

Erratum, 46

Analysis of discrimination reversal learning in children by R. M. Vaughter, 49

The preceding item as cue for a response in serial learning by B. McKeever, 51

Associative and perceptual dominance in compounding stimuli by I. Zakhour, Z. I. Youssef, and M. Dosey, 53

Concreteness without imagery in PA learning by J. C. Yuille, 55

Experimental modification of the lag between perceiving and performing by H. L. Bee and R. S. Walker, 127

Monitoring eye movements during the learning of noun-pairs involving four combinations of stimulus and response concreteness-abstractness by P. D. McCormack, W. E. Fingus, K. M. Haycock, and T. E. Moore, 133

Intrapair and interpair associations in verbal discrimination learning by E. Eberlein and D. C. Raskin, 145

The interaction of social class and type of reinforcement in discrimination learning by M. A. Safer and L. B. Kornreich, 206

Shift behavior in naive and sophisticated children by A. Saravo and E. S. Gollin, 210

Integration of word pair responses in paired associate learning by P. Greenhouse, 223

An experimental demonstration of learning without awareness by L. W. Buckalew, S. H. Finesmith, and D. A. Sisemore, 277

Good and poor readers' learning of verbal and pictorial paired-associate lists by W. Otto, K. Koenke, and C. Cooper, 347

MEMORY

A note on long-term recognition memory for pictorial material by R. S. Nickerson, 58

Two kinds of short-term memory and the serial position effect by S. Breskin, 65

Effects of association value of trigrams and ITI on short-term memory by F. C. Leeming, 67

Overcoming interference in short-term memory through distinctive mental contexts by G. S. Blum, J. R. Graef, and L. S. Hauenstein, 73

The influence of perceptual organizing responses on recall by W. F. Harley, Jr., C. O. Wilson, and R. A. Cole, 135

Why are pictures easier to recall than words? by A. Paivio, T. B. Rogers, and P. C. Smythe, 137

Remembering pictures vs remembering descriptions by K. Dallett and S. G. Wilcox, 139

Recall latencies of highly overlearned items by N. C. Waugh and E. C. Holstein, 143

The effects of sentence structure on the recall of low frequency words by W. L. Porter, 152

Measuring verbal recall. II: The ITR score expressed as a ratio by J. F. Fagan, III, 205

Immediate recall of nominalizations and adjectivalizations by J. Briem and K. Loewenthal, 209

The structure of order error in the build-up of proactive interference in short-term memory by M. T. Turvey, 213

The effect of list difficulty on item difficulty using the method of stimulated recall by E. A. Bilodeau and M. A. Murphy, 215

Priming and the retrieval of names from long-term memory by R. H. Hopkins and R. C. Atkinson, 219

Forward and backward associations in RI-PI differences by M. S. Lindauer, 221

The generality of free-recall: I. Subjective organization as an ability factor by D. S. Gorfein, C. Blair, and C. Rowland, 279

Verbal transfer in repaired paradigms as a function of S_1-R_2 and S_2-R_1 similarity by R. F. Shouldis, Jr., 281

Positive transfer of familiarization training to recognition performance: Effects of stimulus complexity and association value by R. H. Price and R. Hill, 283

The effects of syntactical violation and practice on the free recall of verbal materials in children by L. W. Lezotte and J. L. Byers, 285

The effect of syntactical violation upon the recall of form class by D. L. Anderson and J. L. Byers, 287

Clustering with two-word stimuli each composed of a categorized and a noncategorized word by B. S. Musgrave and S. Allen, 289

Recognition of recalled and non-recalled items by D. W. Packham, 291

Subtraction as interpolated activity in short-term retention by D. Marcer, 359

The relative crossmodal transfer of a form discrimination by R. Eastman (Vol. 9, p. 197)

Comment on "The relative crossmodal transfer of a form discrimination" by H. Lobb, 360

Reply by R. Eastman, 360

Short- and long-term retention of affectively varied modeled behavior by D. J. Hicks, 369

VERBAL PROCESSES

Hue discrimination related to linguistic habits by J. Kopp and H. Lane, 61

The letter span in space and time by J. W. Mathewson, Jr., J. C. Miller, Jr., and H. F. Crovitz, 69

Averaged evoked potentials to classes of visual stimuli by H. Weinberg and R. E. Cole, 71

Effect of mode of presentation on semantic satiation by H. L. Baras, 345

The associative basis of verbal organization: Some leads from a study on category clustering by R. L. Hudson, 353

Standardization of Mexican trigrams by R. K. Young and A. Webber, 354

PROBLEM SOLVING

Effects of increasing success and failure on perceived information quality by S. Streufert and C. H. Castore, 63

Schematic concept formation as a function of constraint redundancy and knowledge of results by B. R. Brown, D. W. Walker, and S. H. Evans, 75

Hypothesis sampling in conjunctive concept identification by I. D. Nahinsky and F. D. McGlynn, 77

The effect of letter frequency on anagram solution times by J. L. Cohen, 79

Higher-order dimensions in concept identification by M. Schlag-Rey and P. Suppes, 141

A learning set procedure involving circular triad problems by M. Goldstein and S. M. Fox, 151

Additive composition by normal and retarded children of matched MA by D. L. McManis, 207

Satiation of a verbal cue in problem solving in French speaking children by H. Cook and J. Vachon, 208

Noncontingent reinforcement and certainty by F. D. Hilf and B. S. Kopell, 211

The effect of simultaneous and successive presentation of information processing training upon concept learning by J. L. Dunham, D. D. Blaine, and M. B. Reeve, 217

Information seeking strategies in cognitive development by K. R. Van Horn and W. H. Bartz, 341

Developmental aspects of three dimensional concept attainment by D. R. Stone, 343

SOCIAL PROCESSES

Classical conditioning of attitudes as a function of number of persuasion trials and argument (UCS) strength by R. F. Weiss, L. M. Chalupa, B. S. Gorman, and N. H. Goodman, 59

Attraction toward a stranger as a function of direct and associated reinforcement by W. B. Griffitt, 147

Start effect and response bias in the prisoner's dilemma game by J. T. Tedeschi, D. S. Hiester, S. Lesnick, and J. P. Gahagan, 149

Effects of stress, communication relevance, and birth order on opinion change by R. Helmreich and J. Hamilton, 297

Differential weighting and directed meaning as explanations of primacy in impression formation by A. Tesser, 299

Discrimination of outcomes in a prisoner's dilemma game by J. T. Tedeschi, D. Aranoff, and J. P. Gahagan, 301

The effect of topic importance and attitude similarity-dissimilarity on attraction in an intrastranger design by D. Byrne, O. London, and W. Griffitt, 303

Sample size, likelihood, and confidence in a decision by G. F. Pitz (Vol. 8, p. 257)

Sample size, confidence, and optimality: Reinterpretation of a previous study by D. J. Davis and M. D. Hart, 349

Reply to Davis and Hart: Unlikely confidence in the size of a sample by G. F. Pitz, 350

Anticipated reinforcement and attraction by W. B. Griffitt, 355

The effect of group size on group information transmitted by F. W. Huff and T. P. Piantanida, 365

PHYSIOLOGICAL PSYCHOLOGY

Age differences in the urinary 17-ketosteroid response to environmental stress by W. P. Paré and A. Livingston, Jr., 15

BRAIN LESIONS

Body weight and food intake rhythms and their relationship to the behavior of cats with brain stem lesions by W. Randall and V. Lakso, 33

Absence of latent learning in rats with hippocampal lesions by D. P. Kimble and E. G. Greene, 99

Frequency and recency of reward and inferotemporal lesions by M. Wilson, L. Rothblat, and E. Kirstein, 237

The effect of blindness of DRL-20 performances exhibited by animals with hippocampal destruction by L. W. Schmaltz and R. L. Isaacson, 241

INTRACRANIAL STIMULATION

Self-stimulation in pigeons: Tests of two alternative explanations by E. M. MacPhail, 3

Extinction under intracranial and conventional reinforcement: Effect of a correlated counter by J. P. Huston, 25

Effects of intraventricular carbachol and eserine on drinking by K. A. Khavari, P. Heebink, and J. Traupman, 93

Tegmental brain stimulation as a UCS in conditioned response suppression by J. M. Morgan and J. C. Mitchell, 97

Hypoxia and temporal aspects of hypothalamic self-stimulation by M. J. Gerben, 169

A procedure to quantify hypothalamically elicited agonistic behavior in the cat by C. L. J. Stokman and M. Glusman, 325

DRUG EFFECTS

Effects of magnesium pemoline on food and water intake in rats by W. J. Pizzi, C. S. See, III, and H. M. Kohn, 81

Lack of effect of TCAP on conditioned avoidance learning in rats by L. S. Otis and G. T. Pryor, 95

Are the cerebral ventricles involved in thirst produced by a cholinergic substance? by R. D. Myers and T. J. Cicero (Vol. 10, p. 93)

Dose-response problem in testing the ventricular hypothesis: Reply to Myers and Cicero by A. Routtenberg, 106

Effects of scopolamine on a "go-no go" avoidance task in rats by B. Meyers and A. K. Koenig (Vol. 9, p. 143)

Comment by G. Bignami, 120

Reply by B. Meyers, 94

Magnesium pemoline: Facilitation of one way and two way avoidance learning by R. W. Thompson and G. R. Knudson, 155

Effects of p-chlorophenylalanine on conditioned avoidance learning by K. Schlesinger, R. A. Schreiber, and G. T. Pryor, 225

Scopolamine effects on a one-trial test of fear conditioning by H. L. Evans and R. A. Patton, 229

Early environment and behavioral-biochemical response to trifluoperazine in monkeys by W. F. Angermeier, J. B. Phelps, H. H. Reynolds, and R. L. Davis, 231

Magnesium pemoline: Effects on the learning and retention of a conditioned avoidance response by rats by J. E. McCarroll and S. F. Korbel, 233

Effect of glucagon on learning an avoidance-escape response in the albino rat by H. A. Tilson and D. C. Cogan, 235

Different temporal gradients of retrograde amnesia produced by metrazol or electroconvulsive shock by J. P. Kincaid, 329

BIOCHEMICAL CORRELATE

Transfer of response bias by injection of brain homogenates: A replication by A. M. Golub and J. V. McConnell, 1

Further positive transfer effects obtained through injections of brain homogenates by J. A. Dyal and A. M. Golub, 13

ANIMAL PSYCHOLOGY

Visual behavior of the Mongolian gerbil *(Meriones unguiculatus)* by D. D. Thiessen, G. Lindzey, S. Blum, A. Tucker, and H. C. Friend, 23

Spontaneous seizures in the Mongolian gerbil *(Meriones unguiculatus)* by D. D. Thiessen, G. Lindzey, and H. C. Friend, 227

Behaviorally determined dark adaptation functions in the turtle, *Pseudemys* by H. Zwick and A. M. Granda, 239

Recording of skin resistance in the unrestrained rat: A possible measurement of artifact by G. Walters and C. Tullis (Vol. 9, p. 27)

Comment by D. Blizard, 340

Reply by G. Walters and C. Tullis, 340

ACTIVITY

Thigmotaxis in mealworms: Effects of barrier height and illumination by W. R. Street, 37

Exploratory behavior: The inadequacy of activity measures by M. H. Sheldon, 38

MOTIVATION

Depression of intake of nutrient by association of its odor with effects of insulin by D. Lovett, P. Goodchild, and D. A. Booth, 27

Effect of urban environment on visual curiosity behavior in rhesus monkeys by S. D. Singh, 83

Effects of early visual conditions on stimulation-seeking behavior in infant rhesus monkeys by C. A. Levison, P. K. Levison, and H. P. Norton, 101

Effect of deprivation level on responses to novel alleys in albino rats by J. S. Cohen and L. J. Stettner, 103

The effect of drive on attention by J. G. Ford, M. D. Morris, and F. J. Bremner, 156

Studies in comparative sugar preference in rodents: I. Methodology differences by M. W. Wagner, 160

Studies in comparative sugar preference in rodents: II. Individual differences by M. W. Wagner, 161

Food-restriction polydipsia in hamsters by C. L. Kutscher, R. D. Stillman, and I. P. Weiss, 243

The effects of water and food deprivation on the heart rate of rats by S. Ashida, 245

The consumption of a saccharin-glucose solution by satiated and food-deprived immature rats by J. W. Kakolewski, V. C. Cox, and E. S. Valenstein, 317

Sexual exhaustion and recovery of masculine copulatory behavior in virilized female rats by R. E. Whalen and R. T. Robertson, 319

LEARNING

The orientation reaction as a mediator of sensory preconditioning by E. R. Parks, 11

Likelihood ratio evaluation of M-state models applied to individual choice sequences of successive reversal learning by W. F. Lowe, Jr. and J. Theios, 85

Visual discrimination learning following single-stimulus training by J. B. Dusek and G. R. Grice, 105

Proactive interference in a T maze brightness-discrimination task by D. A. Chiszar and N. E. Spear, 107

Sensory preconditioning of a conditioned emotional response by S. R. Parkinson, 119

An examination of the sensitivity of successive discrimination reversal (SDR) measures to differences in motivational level with squirrel monkeys by R. L. Gossette and J. Feldman, 157

Psychology and pseudolearning by J. T. Williams, Jr., 159

Reversal learning in an escape situation by J. T. Williams, Jr. and M. H. Scott, 177

Stimulus control: Contrast, peak shift, and Konorskian models by G. Bignami, 249

Position of delay and delay-associated cues in maze learning by E. E. Willis and J. M. Sawrey, 251

Orienting behavior and discriminative proficiency of monkeys by W. A. Pieper, F. J. Chiaverini, and V. J. Polidora, 253

Stimulus control in errorless discrimination by G. B. Biederman Vol. 9, p. 375)

Comment by J. W. Bernheim, 327

Reply by G. B. Biederman, 328

Same-different discrimination of horizontal and vertical stripe patterns in cats by J. S. Robinson, D. R. Metzger, and T. J. Voneida, 331

The relationship of no light to the stimulus dimension of light intensity by L. A. Harris and M. R. Denny, 333

Single alternation patterning without a trace for blame by J. M. Bloom and P. Malone, 335

Solution of dimension abstracted oddity as a function of species, experience, and intelligence by P. N. Strong, Jr., P. Drash, and M. Hedges, 337

AVOIDANCE AND PUNISHMENT

Delay of escape conditioning as a function of two kinds of secondary reinforcement stimulus conditions by J. B. Milby, Jr., 5

Bar press and bar release as avoidance responses by D. Meltzer, 7

The effect of UCS intensity on learning and performance in instrumental aversive conditioning by G. Marsh and G. Walz, 9
Acquisition of stimulus control of bar-press avoidance behavior with guinea pigs by C. D. Webster and M. Walsh, 17
Self-punitive behavior and periodic punishment by R. C. Martin and T. L. Moon (Vol. 10, p. 245)
Erratum, 32
Behavior fixations maintained by pain and by fear by M. H. Kleban, 87
Rewarded responding under inescapable stress and later performance under stress by K. M. Shemberg, 117
The effects of bar-holding training and rapid ratio shaping on fixed-ratio escape responding by R. Norton, M. F. Daley, and P. C. Wolff, 165
Escape response distribution and discriminated avoidance of discontinuous shock by J. H. Hess and J. N. Shafer, 255
Operant rate of planarians as a function of time out from photic stimulation by F. T. Crawford, 257
The non-operant nature of the bar-press escape response by R. C. Bolles and D. B. McGillis, 261
Effects of a classical conditioned 'fear signal' and 'safety signal' on nondiscriminated avoidance behavior by N. E. Grossen and R. C. Bolles, 321

REINFORCEMENT

Extinction and reconditioning of behavior generated by a DRL contingency of reinforcement by D. E. Carter and L. J. J. Bruno, 19
On the discriminative function of the reinforcing stimulus by D. E. Carter and L. J. J. Bruno, 21
Goal gradient effect of incentive motivation (K) manipulated through prior goal box placements by P. C. Senkowski, J. J. Porter, and H. L. Madison, 29
Free-operant extinction as a function of magnitude of reward and number of reinforcements by K. Traupmann and J. J. Porter, 31
Effects of prefeeding in a fixed-interval reinforcement schedule by R. L. Shull and A. J. Brownstein, 89
Reinforcement control of "autistic" verbalization in the mynah bird by M. Rohrbaugh, W. C. Zaynor, and J. H. Grosslight, 91
Induced alcohol consumption through positive reinforcement by J. J. Persensky, R. J. Senter, and R. B. Jones, 109
Effects of visual reinforcer brightness and color on operant behavior of Siamese Fighting Fish by J. G. Grabowski and T. Thompson, 111
The effect of schedules of reinforcement upon the response rates of turtles by F. T. Crawford and P. M. Adams, 153
Varying reinforcement frequency on a percentage-reinforcement schedule by A. J. Neuringer, 163
Partial reinforcement and classical conditioning in two species of fish by E. R. Behrend and M. E. Bitterman, 167
Generalization of the partial reinforcement effect by M. E. Rashotte, M. Ross, and A. Amsel, 173
The failure of stimulus-reinforcement spatial discontiguity to influence performance under optimal conditions of stimulus sampling by T. E. LeVere, 179
Start and goal speeds as functions of runway length by T. Clifford and C. Crouse, 181
Effects of partial delay of reinforcement following a small number of acquisition trials by J. C. Howlett and M. H. Sheldon, 259
Within ratio responding during fixed ratio performance by I. Barofsky and D. Hurwitz, 263
A partial reinforcement effect based on latent procedures in a choice situation by E. C. Jones, 305
Frustrative nonreinforcement of operant responding: Magnitude of reinforcement and response force effects by J. G. Carlson, 307
Effects of within-chain response delay upon post-delay operant performance by J. G. Carlson, 309
The effect of number of large reward training trials on behavior following incentive reduction by S. F. Davis and A. J. North, 311
Incentive reduction: Varied simultaneous reductions and subsequent responding by J. H. McHose, 313
The generalized PRE: Within-S PRF and CRF training in different runways, at different times of day, by different experimenters by M. E. Rashotte and A. Amsel, 315
Facilitated extinction of an avoidance response through shortening of the inter-trial interval by D. Oler and M. Baum, 323
Stimulus pre-exposure and instrumental learning by J. E. Ackil and R. L. Mellgren, 339

SOCIAL BEHAVIOR

Social feeding in domestic chicks: A test of the disinhibition hypothesis by C. W. Tolman and A. W. Wellman, 35
Killing of mice by rats prevented by early interaction between the two species by V. H. Denenberg, R. E. Paschke, and M. X. Zarrow, 39
Unconditioned aggression in the Japanese quail, *Coturnix coturnix japonica* by C. W. Middlebush, P. T. Mountjoy, and V. Riley, 113
Dominance-subordination polarity in early-handled and non-handled rats by G. Becker and I. J. Gaudet, 115
Reaction of monkey mothers to long-term separation from their infants by G. D. Jensen, 171
Imitative pecking in chicks as a function of early social experience by J. G. May, Jr. and D. Dorr, 175
Dominance in monkeys: Effects of social change on performance and biochemistry by W. F. Angermeier, J. B. Phelps, H. H. Reynolds, and R. Davis, 183
Social dominance and learning in the domestic chicken by D. K. Candland and D. H. Conklyn, 247

Contents of Volume 12

PERCEPTION AND PERFORMANCE

An efficient ordered-alternative test for the randomized blocks design by W. J. Krossner and A. Fenvessy, 403

VISION

Observer strategies in dichoptic viewing of successive stimuli by D. H. Thor, 41
Experience with congruity in the perception of incongruity by W. J. Lasko, Jr., and M. S. Lindauer, 59
The influence of exposure time on color discrimination by M. H. Siegel, 227
An adaptation-level theory account of a relative-size illusion by F. Restle and C. T. Merryman, 229
The autokinesis of an after-image by L. Brosgole, 233
The dark-interval threshold as a function of age by R. H. Pollack, R. I. Ptashne, and D. J. Carter, 237
Random shape recognition at brief exposure durations by H. J. Clark, 245
The effect of cue size on the utilization of partially valid cues in perceptual identification by L. Hochhaus, K. Hagen, and M. Templeton, 378
Changes in pupil size to visually presented words by J. M. Polt and E. H. Hess, 389
The Perky effect: Changes in reality judgments with changing methods of inquiry by S. J. Segal, 393

HEARING

Differences in auditory word recognition thresholds as a function of response hierarchy by M. F. Kaplan and J. B. Grier, 43
Ear-asymmetry with monaural stimulation by D. J. Bakker, 62

SKIN SENSES

Effect of contralateral cold on pain tolerance by B. Blitz and A. J. Dinnerstein, 395
Psychophysical scaling of corneal sensitivity by M. Millodot, 401

PERFORMANCE

Magnitude and latency of the pupillary response during an imagery task as a function of stimulus abstractness and imagery ability by A. Paivio and H. M. Simpson, 45
Effects of stimulus transiency in a contingent discrimination situation by M. Goldstein, R. S. Rappaport, and D. W. Schaefer, 123
Accuracy of delayed aiming responses by D. H. Holding, 125
Pupillary responses during mental activities by T. Schaefer, Jr., J. B. Ferguson, J. A. Klein, and E. B. Rawson, 137
The relationship between stochastic and temporal dominance under differing instructional sets by P. J. Mohan, 139
Absolute judgments in speeded tasks: Quantification of the trade-off between speed and accuracy by R. G. Pachella, D. F. Fisher, and R. Karsh, 225
Motor and verbal reaction times to words and drawings by P. Fraisse, 235
Operant fixation in visual preference behavior of infants by J. S. Watson, 241

INFORMATION PROCESSING

A new methodology and finding relating to visual stimulus selection in children by T. T. Faw and J. C. Nunnally, 47
The orienting response and direction of stimulus change by A. S. Bernstein, 127
The rate of assimilation of visual information by D. A. Allport, 231

PSYCHOPHYSICS

Reliability of smile judgments by W. E. Simpson and C. Capetanopoulos, 57
Underestimation of dichotic click rates: Results using methods of absolute estimation and constant stimuli by S. Axelrod and L. T. Guzy, 133
Effects of labeling and number of pretraining exposures on children's perceptual judgments by N. P. Wray and P. S. Spear, 249

HUMAN LEARNING AND THINKING

CONDITIONING

Instructions and interstimulus interval in eyelid conditioning by M. Ominsky, 49
Differential instructions and interstimulus interval in eyelid conditioning by M. Ominsky, 51
Sequential effects in differential human eyelid conditioning by W. F. Prokasy, J. D. Higgins, and R. A. Carlton, 58
The effects of transition probability of reinforcement in intermittent reinforcement schedules in human eyelid conditioning by J. D. Higgins and W. F. Prokasy, 69
Differential GSR conditioning with a complex CS by A. Erlebacher, 129
Cooperation with demand characteristics and the bimodal distribution of verbal conditioning data by M. M. Page and A. R. Lumia, 243
Preconditioning of a secondary reinforcer by M. E. Miller, 247
US intensity and nonreinforcement technique in eyelid conditioning by F. A. Minnigerode and D. C. O'Connell, 371

DISCRIMINATION LEARNING

Dependent measures of children's discrimination learning by K. G. Scott and M. Christy, 53
Criterion level and task difficulty as determinants of reversal learning by T. W. Turnage and J. I. Steinmetz, 131
Transfer from perceptual pretraining as a function of number of stimulus values per dimension by L. S. Tighe and T. J. Tighe, 135
Social class and reinforcer effects in discrimination learning by B. J. McGrade, 140
Transitivity of choice behavior in preschool children by J. C. Campione, E. G. Gjesdahl, Kristeen Griffin, and F. M. Rabinowitz, 271
Children's relative and absolute shape learning: A comparison with size learning by N. G. Rane and P. W. Berman, 383

VERBAL LEARNING

The effects of high and low meaningfulness and interitem association upon the level of difficulty of a serial task by P. S. Delin, 71
Individual differences in memory and the serial position effect by D. M. Roberts and L. Lewis, 77
The effects of rate of exposure upon simultaneous intentional and incidental verbal-discrimination learning by N. J. Kanak, 141
An investigation of list types and cues to facilitate initial reading vocabulary acquisition by R. N. Hartley, 251
Signal detection in a paired-associate learning task by R. H. Hickson, 253
Monitoring eye movements while studying the effects of response familiarization on paired-associate learning by T. E. Moore and P. D. McCormack, 269
Repetition and serial learning by L. Brosgole, K. H. Hansen, and A. F. Contino, 273
Bidirectional List 2 learning and the A-B, C-A transfer paradigm by R. M. Schulman, 275
Imagery and paired-associate recognition by G. A. Raser and W. H. Bartz, 385
The distributed practice effect and list length in paired-associate learning by D. C. Rimm, 387

REINFORCEMENT

Serial position effects in the two-choice probability learning situation by D. M. Roberts and J. K. Brewer, 60

The effects of locus of control instructions and reinforcement contingency on performance in a two-choice situation by R. A. Baron, 121

Effects of reward schedules on the acquisition of conditioned reward value by K. A. Kendall and J. C. Nunnally, 239

A positive contrast effect in probability learning with monetary incentives by J. Halpern and P. D. Knott, 381

MEMORY

The serial position effect in short-term memory under E- and S-paced conditions by N. R. Ellis and J. Dugas, 55

The effects of acoustic disruption on short term memory by M. Newell, 61

Semantic as opposed to acoustic encoding in STM by D. D. Wickens and G. R. Eckler, 63

Tactile retention as a function of delay interval and response mode by T. H. Anderson and C. K. West, 65

Encoding and arousal factors in free recall of verbal and visual material by S. Kaplan, R. Kaplan, and J. R. Sampson, 73

Selective interference in immediate recall by J. Morton, 75

Effects of storage load and word frequency on pupillary responses during short-term memory by E. L. Elshtain and T. Schaefer, Jr., 143

The recall of repeated items in immediate memory tests by H. C. A. Dale and A. McGlaughlin, 145

Delay and the digit probe by A. D. Baddeley, 147

Motivation and long-term memory by B. A. Heinrich, 149

Transfer in oddity problems as a function of type and amount of pretraining by M. L. Schroth, 151

Success in recall as a function of success in implementation of mnemonic instructions by P. S. Delin, 153

Successive recall as a measure for the unlearning effect by E. Weiss and G. Lazar, 255

Some relations between affect and recall: An exploratory study by E. E. Smith and W. Sloboda, 257

Order of recall in short-term memory by H. A. Taub and R. A. Monty, 259

Prestimulus and poststimulus cuing of recall order in the memory span by J. V. Hinrichs, 261

Facilitation of recall by structure in serially presented nonsense strings by D. C. O'Connell, C. L. Stubbs, and M. A. Theby, 263

Decay and interference theories of short-term forgetting by C. Spring, 373

Recall of subject nominalizations by N. L. Rohrman and D. J. Polzella, 376

Conditional and unconditional co-occurrence restrictions in the recall of bigrams by K. H. Smith, 379

Warmup effects in free recall by A. M. Raffetto and J. C. Koeppel, 397

Degree of priming in the retrieval of authors' names from long-term memory by R. H. Hopkins and R. C. Atkinson, 399

VERBAL PROCESSES

CCC trigrams of low association value: A re-evaluation by A. F. Costantini and R. O. Blackwood, 67

High and low frequency nouns as sources of hesitation in the production of speech by R. W. Howell and H. J. Vetter, 157

Group predictions of item differences of CVC trigrams by L. G. Lippman and B. L. Kintz, 265

Semantic satiation as a function of type of associate by J. Goldman, P. R. Costanzo, and S. A. Lehrke, 267

Effects of prompting, confirmation, and free choice upon children's acquisition, verbalization and generalization of a concept by W. G. Le Furgy and J. A. Sisserson, 277

Mediated facilitation in a four-stage chaining paradigm by J. R. Williams and I. P. Levin, 281

Verbal indices of conceptual complexity: Manipulation by instructions by P. Suedfeld, 377

Verbal noise and linguistic constraints by H. Buschke, 391

CONCEPT FORMATION AND PROBLEM SOLVING

Effects of semantic incompatibility upon deductive reasoning by L. T. Frase, 64

Category set in anagram solutions by J. P. Cozzolino, 155

Type and amount of available past instances in concept learning by D. D. Blaine, J. L. Dunham, and T. W. Pyle, 159

Interpretation of information that an instance is positive or negative in concept identification by J. P. Denny and J. G. Benjafield, 283

Concept formation and art: Further evidence on the applicability of Walk's technique by T. J. Tighe, 363

Concept identification as a function of relevance of training and intertask instructions by G. Namikas and D. Harris, 365

Effects of knowledge of results on schematic concept formation by J. G. Pearre and E. C. Jones, 367

The vertical dimension: A significant cue in the preschool child's concept of "bigger" by B. W.-S. Poteat and R. C. Hulsebus, 369

SOCIAL PROCESSES

Original stakes and behavior in the prisoner's dilemma game by D. Aranoff and J. T. Tedeschi, 79

Effects of incentive as a within- and between-subjects variable in risk-taking by R. C. Petersen, A. F. Kanarick, and B. R. Hergenhahn, 279

The role of race, sex, hostility, and verbal stimulus in inflicting punishment by Z. I. Youssef, 285

Buying insurance in an urn-scheme experiment by F. W. Irwin and F. Tolkmitt, 287

Impression formation as a function of the relative amounts of information presented by high and low credibility sources by M. E. Rosenbaum and I. P. Levin, 349

Sensitivity to the generalized other with control for assimilative projection by C. H. Lay and G. Thompson, 351

The effects of social isolation with motor restraint on a figure placement task by D. G. Martin and D. Schroeder, 353

The expression of social experience in a figure placement task by D. G. Martin and W. K. Van Dyke, 355

Group opinion change as a function of circular vs rectangular seating arrangement by H. L. Minton, J. A. Steger, and G. R. Smrtic, 357

Intensity of attack, displacement and verbal aggression by D. L. Mosher and L. M. Proenza, 359

The perception of experimentally-induced success by K. L. Higbee and S. Streufert, 361

The effect of an undecided alternative on resolution of approach-approach and avoidance-avoidance conflict situations by J. Minor, L. Miller, and R. Ditrichs, 375

PHYSIOLOGICAL PSYCHOLOGY

Average evoked potentials and uncertainty resolution by E. Donchin, 103

Amplitude of visual evoked potentials as a function of illuminance by J. M. Fuster and G. Sierra, 105

Drug RNA species developed during a shock avoidance task by B. Machlus and J. Gaito, 111

Preoperative experience and postoperative fluid preference in adrenalectomized rats by D. L. Grimsley and J. W. Cullen, 119

RNA induced enhancement of a simple discrimination task by R. G. Gibby, D. G. Crough, and S. J. Thios, 295

Possible olfactory transduction of radiation-induced aversion by W. H. Riege, 303

Enhancement of learned fear with epinephrine by D. K. Kamano, 331

BRAIN LESIONS

Effects of anterior vs posterior cingulate lesions on passive-avoidance responding in rats by J. J. Boitano, J. F. Lubar, and M. S. Furnald, 25

Septal ablation and CAR acquisition in the golden hamster by E. S. Matalka and B. N. Bunnell, 27

Short-term memory and brain-bisected man by M. S. Gazzaniga, 161
Reactivity in the hippocampectomized gerbil by L. C. Ireland and R. L. Isaacson, 163
Hippocampal lesions: Effects on memory in rats by C. G. Gross, P. Black, and S. L. Chorover, 165
Pupil response in cats after chiasm section by T. H. Caulfield, J. S. Robinson, and T. J. Voneida, 289

ELECTROCONVULSIVE SHOCK
Potentiation of the amnesic effect of electroconvulsive shock by detention by F. Robustelli, A. Geller, and M. E. Jarvik, 85
Alterations in the behavioral and biochemical effects of electroconvulsive shock with nicotine by W. B. Essman, M. L. Steinberg, and M. I. Golod, 107
The time relations of ECS induced amnesia by A. Geller and M. E. Jarvik, 169
Retrograde amnesia produced by localized electrical stimulation of brain through chronically implanted electrodes by A. B. Robins and G. J. Thomas, 291
The effect of electroconvulsive shock on a socially motivated instrumental response by T. D. Yarnell, 297

BRAIN STIMULATION
Running elicited by hypothalamic stimulation by M. J. Gerben, 19
Anticholinergic brain stimulation and thirst induced by 23 hour water deprivation by R. A. Levitt, 21
Oddity learning in rats reinforced with brain stimulation by R. N. Johnson and R. S. Levy, 95
Dose-response problem in testing the ventricular hypothesis: II. Reply to Khavari, Heebink, and Traupman by A. Routtenberg, 99
Intracranial stimulation: Performance decrements and a fear-reducing drug by R. E. Wasden and L. D. Reid, 117
Effects of stimulation of frontal cortex on neuronal activity in association and sensory areas of the cortex by L. A. Bettinger, H. Birch, P. M. Groves, K. S. Mayers, and R. F. Thompson, 167
Extinction following intracranial reward: Frustration or drive decay? by J. Panksepp and J. Trowill, 173
Clarification of the role of the cerebral ventricles in cholinergically induced drinking by T. J. Cicero and R. D. Myers, 343

DRUG EFFECTS
Magnesium pemoline: Effects on active and passive avoidance conditioning in mice by C. Wimer, S. Donner, and D. Martin, 23
The effects of hypoxia on an information-reduction task in humans by F. Ledwith, 29
Stimulating effects of chlordiazepoxide in rats on a food reinforced FR schedule by P. W. Wedeking, 31
Drug withdrawal and fighting in rats by J. Florea and D. H. Thor, 33
Effect of scopolamine on response by the rat to environmental change by R. N. Leaton and R. L. Buck, 101
Magnesium pemoline: Effects on avoidance conditioning mediated by anticipatory responses by J. Collins and M. R. D'Amato, 115
Drug effects in fixed ratio matching to sample by D. E. Mintz, D. J. Mourer, and M. D. Stein, 171
Scopolamine effects on activity and paper shredding in the gerbil (*Meriones unguiculatus*) by M. Stitzer and R. L. Isaacson, 175
Magnesium pemoline: Effects on spontaneous activity, stimulus responsivity and food intake by J. Gianutsos, R. Gianutsos, and Y. Filby, 177
Carbon dioxide-induced amnesia in the cockroach *Periplaneta americana* by W. C. Freckleton, Jr., and D. Wahlsten, 179
Effects of scopolamine and eserine on position discrimination learning with an exploratory incentive by R. N. Leaton, 181
Amobarbital sodium and instrumental performance changes following an increase in reward magnitude by J. R. Ison and J. Northman, 185
Apomorphine-induced conditioned aversion to a novel food by W. A. Wittlin and K. H. Brookshire, 217
Effects of TCAP on passive avoidance learning in the rat by E. M. Gurowitz, D. A. Gross, and R. George, 293
Motivation and the behavioral effects of LSD by J. B. Appel, W. E. Whitehead, and D. X. Freedman, 305
An analysis of the effect of glutethimide on REM density by C. Allen, A. Kales, and R. J. Berger, 329

ANIMAL PSYCHOLOGY

A circadian variable in self-exposure to light by the rat by D. H. Thor and D. L. Hoats, 1
Pre-exposure and stimulus choice: Effects of locale by D. Lester, 3
Pre-exposure and stimulus choice: Effects of odor trail by D. Lester, 5
The influence of early climbing experience upon later climbing behavior by C. M. Corter, L. J. Rodd, and R. B. McCall, 319
Startle responsiveness after habituation to different intensities of tone by M. Davis and A. R. Wagner, 337

SENSORY FUNCTIONS
Individual recognition by natural concentrations of olfactory cues in mice by M. E. Hahn, Jr., and E. C. Simmel, 183
Apparatus for the differential visual depth threshold and its determination in the hooded rat by H. R. Booher and R. D. Walk, 187
Differential visual depth threshold of the chick by R. D. Walk, T. L. Falbo, and C. Lebowitz, 197
The influence of level of illumination and size of pattern on the depth perception of the kitten and the puppy by R. D. Walk, 199

ACTIVITY
Drive and habit components of running activity in the rat following food deprivation by R. E. Connally, 9
To see, or not to see: Rearing activity as a function of changes in the visual field by E. Weldon, 83
Effects of olfactory stimuli on Y-maze exploration of rats by D. Lester, 97
Animal-experimenter interaction and open-field behavior: The rat by J. Kenyon, 98
Prenatal sound stimulation on offspring visual variation seeking by M. Morra, 201
Conditioned inhibition of exploration in young rats by D. M. Atrens and P. M. Bronstein, 309

EMOTION
Alcohol consumption in domestic and wild rats by E. O. Eimer and R. J. Senter (Vol. 10, p. 319)
Comment on Eimer and Senter by R. Boice and W. P. Aspey, 113
Reply to Boice and Aspey by R. J. Senter and E. O. Eimer, 114
Neophobia in wild and laboratory mice by T. D. Meddock and D. R. Osborn, III, 223
Partial maternal separation and adult emotionality in BALB/c mice by R. C. LaBarba, R. Lutz, and J. White, 301

MOTIVATION
Stability of sucrose drinking curves in genetically heterogeneous mice by R. L. Levine, 11
Readiness to eat in the pigeon by M. Megibow and H. P. Zeigler, 17
Decreased urine formation in sodium depleted rats by W. B. Vance, 102
Water intake following capture and deprivation in southwestern rodents by R. Boice and C. Boice, 104
Changes in colored or flavored food preferences in chickens as a function of shock by M. J. Moore and P. J. Capretta, 195
Chlorpromazine consumption of rats under stress by R. L. Solso and D. G. Davenport, 203
Effects of deprivation and presence of food on intake of sucrose solution in six-bottle tests by D. H. Owings and R. B. Lockard, 299
Saccharine preference in rats as a function of age and early experience by F. B. Colavita, 311

Effects of cohabitation with females on the sexual behavior of inexperienced male rats by M. Newell and D. Page, 332

CONDITIONING

The effects of CS intensity upon learning and performance of the conditioned eyelid response in monkeys by R. R. Mourant and H. S. Pennypacker, 81

An examination of Pavlovian induction phenomena in differential instrumental conditioning by D. W. Leonard, J. Weimer, and R. Albin, 89

Mass action and Pavlovian conditioning by D. A. Oakley and I. S. Russell, 91

Conditioned suppression as a function of the number of stimuli that precede shock by J. A. Brahlek, 189

The interaction of ITI interpolated stimuli and ISI on classical conditioning of the nictitating membrane response of the rabbit by R. E. Snyder and J. D. Papsdorf, 191

LEARNING

Proactive interference in retention of nondiscriminative learning by D. A. Chiszar and N. E. Spear, 87

Spontaneous pattern discrimination in the rat: A further analysis by R. M. Berry, R. L. Rogers, and J. E. McCarroll, 100

Comparison of successive discrimination reversal (SDR) performances of seven mammalian species on a spatial task by R. L. Gossette, G. Kraus, and J. Speiss, 193

Suppression of running times by olfactory stimuli by R. J. Courtney, Jr., L. D. Reid, and R. E. Wasden, 315

The effect of enriched environment and handling on the learning of a visual discrimination task by C. Rinck, 317

The effect of irrelevant cues and overtraining on discrimination reversal in the pigeon by G. Marsh and R. Johnson, 321

Alternation in the fruit fly, *Drosophila melanogaster* by R. B. May and A. W. Wellman, 339

AVOIDANCE AND PUNISHMENT

Response consequences and Sidman avoidance behavior in the goldfish by G. A. Pinckney, 13

Response-contingent CS termination as a factor in avoidance conditioning by M. Cole and D. Wahlsten, 15

Yoked comparisons of instrumental-avoidance and classical conditioning of the rabbit nictitating membrane response as a function of interstimulus interval and number of trials per day by R. B. Hupka, D. W. Massaro, and J. W. Moore, 93

Stimulus effectiveness in avoidance behavior in fish by D. W. Jacobs and A. N. Popper, 109

"P-R" differences in intact cockroaches as a function of testing interval by J. Disterhoft, J. Nurnberger, and W. C. Corning, 205

Stimulus intensity dynamism with stimuli equal decibel distances above and below background by J. C. Birkimer and D. L. Drane, 213

Reinstatement: An attempt at replication by E. E. Shubat and J. M. Whitehouse, 215

Incubation in one-trial passive avoidance learning: A cautionary note by W. I. Riddell and T. Herman, 335

Discriminative compartmental CSs in shuttlebox avoidance acquisition by P. E. Freedman and B. S. Callahan, 341

The role of anticipation of post-session feeding in increasing resistance to punishment by M. Akhtar and E. K. Bond, 347

REINFORCEMENT

Response rate as a factor in choice by P. Killeen, 34

Partial reinforcement acquisition effects within subject by J. Dutch, 35

Facilitative effects of reward and decremental effects of nonreward in the initial trials of partial reinforcement by J. R. Ison and L. A. Pinckney, 37

Quantity of reinforcement and fixed-interval performance by D. Meltzer and J. A. Brahlek, 207

Effect of ascending, descending, and irregular order of varied reward magnitude by J. Bowen, 209

Effects of percentage reinforcement on choice in a concurrent chain schedule by J. W. Schneider, 211

Relative effects of response contingent pre-time-out and pre-food stimuli upon operant responding by H. D. Hamm and J. Zimmerman, 219

Operant performance as a function of novelty of reward by G. D. Jensen and L. S. Pecaut, 221

The conditions governing secondary reinforcers by R. E. Schaub, B. R. Bugelski, and M. Horowitz, 224

Reacquisition and stimulus specificity by J. E. Spivey, D. Black, and D. T. Hess, 307

Disinhibition of delay in fixed-interval instrumental conditioning by J. V. Hinrichs, 313

Habit reversal following single-alternative training and partial reinforcement by E. Van Laer and N. Pastore, 327

Competing responses in a differential magnitude of reward discrimination by J. R. MacKinnon, 333

Differential reward conditioning in the pigeon by A. Brownlee and M. E. Bitterman, 345

EXTINCTION

The effect of partial reinforcement on extinction in avoidance conditioning by G. Marsh and N. Paulson, 39

Resistance to extinction as a function of amount of pretraining in a free-operant situation by K. Traupmann and J. J. Porter, 323

Extinction behavior following differential partial reward sequences by J. M. Bloom, 325

SOCIAL BEHAVIOR

Defecation and ambulation in a novel environment as determinants of dominance-subordination polarity in the rat by G. Becker and I. J. Gaudet, 7

Dominance in monkeys: Sex differences by W. F. Angermeier, J. B. Phelps, S. Murray, and J. Howanstine, 344

Contents of Volume 13

PERCEPTION AND PERFORMANCE

VISION

The perception of rotation with an oscillating trapezoid by R. Zenhausern, 79

Visual search and memory under degraded and masked presentation by L. Standing and R. N. Haber, 81

Clarity and recognition of masked and degraded stimuli by R. N. Haber and L. Standing, 83

Transfer effects in adaptation to prismatic displacement by E. van Laer, 85

Assessments of temporal discrimination in vision by D. N. Robinson, 247

Expected scores in the rod-and-frame test: Fuel for the Immergluck-Pressey fire by G. M. Vaught, 248

LOWER SENSES

Effect of preceding and concurrent stimulus conditions on the pleasantness of auditory stimulus sequences by K. Wender, P. B. Baltes, and G. Labouvie, 73

The effect of set upon length estimation in active touch perception by J. E. Roeckelein, 193

Simplicity as a principle in tactual form perception by J. E. Roeckelein, 195

The effect of auditory hallucinations on loudness of verbal report by C. G. Stewart, 197

Stability of auditory perception of words and pure tones under repetitive stimulation in neutral and suggestibility conditions by B. Fenelon and J. A. Blayden, 285

PERFORMANCE

Factors affecting children's alternation and choice behaviors by S. Manley and F. D. Miller, 65

Effects of lag on cued alternation by E. S. Gordon and M. Goldstein, 67

Pupillary changes and reaction time with varied stimulus uncertainty by J. L. Bradshaw, 69

Perceptual perimeters and generalized drive by R. L. Solso, J. E. Johnson, and G. C. Schatz, 71

The observing response is not due to biased expectancies by T. S. Wallsten and J. Catlin, 77

Information available from brief visual presentations using two types of report by C. M. Lawrence and J. Ross, 199

Subjective probability revision in twelve simultaneous sequences by S. G. Lipkin and D. D. Willis, 201

Differential effects of two types of aversive arousal on discriminability by J. Bieri and B. Meyers, 203

Stable hours and varied work as aids to efficiency by R. T. Wilkinson and R. S. Edwards, 205

Preference for complexity as a function of schematic orderliness and redundancy by S. H. Lane, 209

The accuracy of reproducing target positions under various tensions by G. E. Stelmach, 287

Stimulus intensity and familiarization effects on simple RT performance in children by F. D. Miller and G. H. Moffat, 289

Temporal discrimination as a function of total presentation time by D. H. Thor and H. H. Spitz, 291

Latency and magnitude of the pupillary response during an imagery task by H. M. Simpson, F. M. Molloy, S. M. Hale, and M. H. Climan, 293

Limitations of the repetition effect revealed by partial report by L. Standing and F. DaPolito, 297

The relation of correct and error responses in a serial choice reaction task by D. Hale, 299

DETECTION

Effect of signal satiation on signal detection in auditory vigilance by J. P. Das and P. Pradhan, 211

Tactual size perception with the method of magnitude estimation by J. E. Roeckelein, 295

Effects of information feedback and reference tones on signal detection by A. Nash and R. Adamson, 301

Magnitude estimation of perceived distance over various distance ranges by R. J. Vincent, B. R. Brown, R. P. Markley, and M. D. Arnoult, 303

Selective attention: The site of the filter in the identification of language by J. M. Wilding and G. Underwood, 305

Adaptation-level theory: Absolute or relative anchor effectiveness? by V. Sarris, 307

HUMAN LEARNING AND THINKING

CONDITIONING

Instrumental escape conditioning and extinction as a function of UCS intensity and instructions by J. J. Porter, J. M. Dawley, and J. H. Porter, 89

Effects of operant conditioning on frequency of polysyllabic words and speed of response by A. R. Hakstian and C. A. Brickner, 207

Allowing for the orienting response in GSR conditioning by H. A. Lando and R. H. Tanck, 213

REINFORCEMENT

A postcontingency test of the effectiveness of reinforcement by B. H. Wasik, 87

Resistance to extinction and continuous punishment in humans as a function of partial reward and partial punishment training by J. L. Deur and R. D. Parke, 91

Operant GSR conditioning using a within-S design by J. R. Milstead, P. E. Baer, and M. J. Fuhrer, 215

Response measure effects in children as a function of type and schedule of reward by P. Watson, 217

Patterns of event runs in probability learning by M. R. Jones and J. R. Erickson, 317

Some evidence supporting Nuttin's explanation of spread of effect by T. B. Leonard, III, and A. M. Raffetto, 319

Secondary reinforcers as discriminative stimuli in choice performance by J. H. Gill and J. Fox, 323

DISCRIMINATION LEARNING

The use of sexually arousing slides as unconditioned stimuli for the GSR in a discrimination paradigm by S. J. Dean, R. B. Martin and D. L. Streiner, 99

Line-orientation generalization in children and adults as a function of the number of training trials by J. S. Landau, 219

The effect of stimulus characteristics on immediate and delayed transposition by K. A. Blick and J. I. McClurkin, III, 233

Overtraining and stimulus change in extra-dimensional shifts by J. L. Wolff and J. T. Guthrie, 309

VERBAL LEARNING

Pair congruence and interpair interference in paired-associate learning by M. Clements and T. Y. Arbuckle, 93

Order preference in serial learning by R. M. Gardner, G. W. Nappe, and W. P. Wallace, 95

Verbal discrimination learning as a function of experimental

frequency by J. Berkowitz, 97
Cue utilization in serial learning by L. G. Lippman, 101
Incidental learning and the timing of arousal by D. E. Berlyne and S. T. Carey, 103
The effect of anxiety on cue selection in the A-Br paradigm by R. L. Solso, 105
A methodological note on direct tests of the effectiveness of positional cues in serial learning by J. R. Heslip, 221
Response prompting: The practice time variable by J. B. Sidowski, 311
Common label pretraining: Interference and/or facilitation? by M. E. Marshall, 313
Effect of number and relatedness of stimulus-term components on paired-associate learning by J. Liftik and K. L. Leicht, 315
Stimulus and response concreteness, imagery, and temporal factors in paired-associate learning by A. D. Yarmey, B. J. O'Neill, and D. de Ryk, 321
The influence of distinctiveness on stimulus selection by K. A. Jacobus and S. D. Leonard, 339

MEMORY

Some observations on memory artifice by J. Ross and K. A. Lawrence, 107
Language and memory: Redintegrative memory for shapes facilitated by naming by J. L. Santa and H. B. Ranken, 109
The generality of free-recall: II. Performance as a function of type of material by D. S. Gorfein, C. Blair, and C. Rowland, 111
Learning strategy, list abstractness, and free-recall learning by G. Wood and R. H. Terborg, 113
PI in STM resulting from the semantic similarity of items by A. E. Whimbey and V. Fischhof, 127
Postural set as a factor in short-term motor memory by R. A. Schmidt and G. E. Stelmach, 223
Acoustic similarity and RI in PAL by H. C. A. Dale and A. McGlaughlin, 225
Accuracy of subjective judgments of information in long-term memory by F. DaPolito, H. Guttenplan, and H. Steinitz, 227
Organized recall: Individual functions by G. Mandler, 235
Reconstitutive memory in kindergarten children by N. W. Dahlem, 331
Retention in paired-associate learning related to extroversion and neuroticism by R. J. McLaughlin, 333

VERBAL PROCESSES

Grammatical category as mediator by Z. W. Pylyshyn and A. Feldmar, 115
Associative strength over time of first and second list responses in color context by J. M. Randel and C. Havrda, 117
Mediation vs pseudomediation in kindergarten children by D. H. Kausler and J. W. Deichmann, 119
Meaningfulness of Underwood and Richardson's (1956a) sense impression descriptive adjectives by D. M. Roberts, 121

PROBLEM SOLVING

The dependency of intermediate size problem responses upon sets in human Ss by K. E. Baker and J. Ulness, 75
Anagram solving: A function of the frequency of vowel-consonant pattern by R. Schwartz, 229
Concept learning in mentally retarded Ss using three types of verbal labels by W. E. Stephens and M. Komechak, 231
Some direct tests of concept identification models by C. E. Kenoyer and J. L. Phillips, 237
Facilitation of schematic concept formation as a function of two within-schema pretraining modes by W. C. Rankin and S. H. Evans, 325
Information load, time spent, and risk taking in complex decision making by S. Streufert and S. C. Streufert, 327
A direct investigation of hypothesis-making behavior in concept identification by R. Falmagne, 335

SOCIAL PROCESSES

Race and sex of adolescents and cooperation in a mixed-motive game by S. A. Sibley, S. K. Senn, and A. Epanchin, 123
The effects of threat and attraction on interpersonal bargaining by L. Tornatzky and P. J. Geiwitz, 125
The experimenter bias effect: A failure to replicate by T. Jacob, 239
Aversive stimulation and the laughter response by D. C. Main and R. J. Schillace, 241
Effects of consistent or deviant modeling cues on the adoption of a self-imposed standard by J. H. Hill and R. M. Liebert, 243
The effects of information redundancy on evaluations of social stimuli by R. S. Wyer, Jr., 245
The influence of an advantaged third person on collaboration in a prisoner's dilemma game by T. L. Radinsky and D. G. Myers, 329
Eye-contact and the recall of material involving competitive and noncompetitive associations by G. Stanley and D. S. Martin, 337
Experimenter bias in the prisoner's dilemma game by P. S. Gallo, Jr., and I. A. Dale, 340

PHYSIOLOGICAL PSYCHOLOGY

Expectancy waves and other complex cerebral events in dyslexic and normal subjects by B. Fenelon, 253

BRAIN LESIONS

Effect of frontal ablations upon an acquired temporal discrimination by M. E. Meyer, C. A. Gray, and C. A. Blick, 129
Hypothalamic lesions and food/water intake in the Barbary dove by P. Wright, 133
The effects of septal lesions on the learning and reversal of a kinesthetic discrimination by P. L. Gittelson and P. J. Donovick, 137

ELECTROCONVULSIVE SHOCK

Evaluation of the one-trial passive avoidance task as a tool for studying ECS-produced amnesia by J. P. J. Pinel, 131
The sleep-dream cycle and convulsion threshold by E. Hartmann, J. Marcus, and A. Leinoff, 141

BRAIN STIMULATION

Response rate for food and water in the rat as a function of noncontingent, reinforcing septal stimulation by P. D. Mabry and D. F. Peeler, 51
Fixed-ratio schedules using brain stimulation as a reinforcer by S. I. Cohen and R. W. McIntire, 57
Electrical stimulation of the hippocampus and perseveration in an exploratory maze by R. N. Leaton, 59
The effect of intertrial interval on running performance for ESB by J. Panksepp, R. Gandelman, and J. Trowill, 135

DRUG AND CHEMICAL EFFECTS

Chemical variation in brain loci during shock avoidance by J. Gaito, J. Mottin, and J. H. Davison, 41
Extinction reversal by Scopolamine by W. F. Herblin, 43
Magnesium pemoline: Effects on learning and retention in 250 day old rats by G. R. Francois, 61
Effects of repeated administrations of atropine on two multiple schedules by R. D. Willis and L. M. Windland, 139
Magnesium pemoline: Effect on food reinforced discrimination performance in rats by K. W. Scholz, D. F. Peeler, and

O. B. Ward, Jr., 145
The effect of chlorpromazine on survival motivated escape response by M. Ball and J. E. Harrigan, 147
Cortical application of ribonuclease and amnesia for a visual discrimination by C. W. Hendrickson and R. J. Kimble, 149
Retrograde amnesia: Role of temperature, dose, and duration of amnesic agent by A. Cherkin, 255
Effects of magnesium pemoline on shock avoidance conditioning and on various chemical measures by J. Gaito, J. H. Davison, and J. Mottin, 257
Chemical variation in the ventral hippocampus and other brain sites during conditioned avoidance by J. Gaito, J. Mottin, and J. H. Davison, 259

RADIATION EFFECTS
Sex differences in the activity wheel as a function of fetal age at irradiation by J. C. Martin, 249
Saccharin preference and aversion as a function of irradiation and supplier in the albino rat by J. C. Martin, 251

ANIMAL PSYCHOLOGY

Evidence for color vision in the prairie dog *(Cynomys ludovicianus)* by R. E. Cain and R. H. Carlson, 185

EMOTIONALITY AND EXPLORATION
Open-field behavior in mice: Genetic analysis of repeated measures by J. P. Hegmann and J. C. DeFries, 27
The consistency of weanling and adult rats by D. L. King, 29
Open-field activity and exploratory behavior by C. D. Corman and J. N. Shafer, 55
Effects of two types of feeding on the weight and open-field behavior of rats by D. Lester, 63
Exploratory behavior: The inadequacy of activity measures by M. H. Sheldon (Vol. 11, p. 38)
Reply to Sheldon by D. Lester, 64
Reply to Dr. Lester by M. H. Sheldon, 284
Effects of postweaning rearing conditions on emotionality and social-seeking behavior in the rat by D. Singh and W. S. Maki, Jr., 163
Preference for familiar stimulation independent of fear of novelty by A. B. Sheldon, 173

MOTIVATION
Water drinking and air drinking: Some physiological determinants by W. J. Carr, B. H. Levin, and M. L. Dissinger, 23
Sexual satiety in rats: Effects of prolonged post-ejaculatory intervals by D. W. Dewsbury and S. K. Bolce, 25
Individual differences in eating and drinking in the rat by J. Allison, 31
Sucrose incentive shifts in the Skinner box with thirsty rats by A. J. Rosen and M. Jacobs, 175
Body temperature change in the snapping turtle *(Chelydra serpentina)* by R. L. Gossette and A. Hombach, 177
The effects of a controlled eating and drinking history on the development of schedule-induced polydipsia by N. Hymowitz and C. Koronakos, 261
Color preference shift in hungry and thirsty pigeons by J. D. Delius, 273

CONDITIONING
Sensory preconditioning of cats in a shuttle box avoidance situation by J. L. Davis and R. F. Thompson, 37
The effects of ITI interpolated stimuli and CS intensity on classical conditioning of the nictitating membrane response of the rabbit by W. R. Salafia and J. D. Papsdorf, 187
Habituation in the polychaete *Hesperonoe adventor* by J. A. Dyal and K. Hetherington, 263

DISCRIMINATION LEARNING
Cue selection in discriminative operant conditioning by B. R. Hergenhahn and D. G. Gottlieb, 33
Discrimination learning in the South American tapir *(Tapirella)* by G. McCain, 35
Reversal and nonreversal learning in the goldfish by E. R. Behrend, L. Jennings, and M. E. Bitterman, 179
Imprinting: Transfer of the following response after initial attachment by R. H. Porter and L. J. Stettner, 181
Effect of variation in motivational level during brightness SDR training among squirrel monkeys by R. Gossette and P. Slonim, 13
Discrimination learning and extinction in the black rhinoceros *(Diceros bicornis)* by G. McCain and G. Stepter, 189
Successive discrimination reversal performance as a function of level of drive and incentive by J. M. Feldman, 265
Learning with one and two cues by N. S. Sutherland and L. Andelman (Vol. 7, pp. 107-108)
Reply to Sutherland and Andelman by H. Babb, 283

AVOIDANCE AND PUNISHMENT
Dual effects of a second-order conditioned stimulus: Excitation and inhibition by D. Herendeen and D. C. Anderson, 15
Passive avoidance: A variety of fear conditioning? by R. J. Blanchard and D. C. Blanchard, 17
Escape and avoidance responses to a fear eliciting situation by R. J. Blanchard and D. C. Blanchard, 19
Escapable-inescapable shock and body weight loss by D. M. Ragusa, K. M. Shemberg, and W. Rasbury, 45
The cue in discriminated escape conditioning as a secondary positive reinforcer by D. G. Davenport and J. J. Lerner, 47
Maintenance of avoidance during differential shock and nonshock confinement by J. H. Reynierse, R. Rizley, and M. J. Scavio, Jr., 49
Avoidance of a warning signal by F. A. Logan and R. Boice, 53
Effects of fear conditioning on the subsequent acquisition of an avoidance response by B. M. Slotnick, 159
Conditioned suppression of licking as a function of shock intensity by J. P. James and W. W. Mostoway, 161
Control of avoidance by a discriminative stimulus by S. G. Lynn and J. A. Nevin, 171
Conditioned suppression increases following training in pigeons by J. S. McMichael, 267
CS-US interval and suppression of unconditioned vocalization to shock: Associative or non-associative by P. Badia, R. H. Defran, and P. Lewis, 269
Effects of an extinguished fear stimulus on avoidance behavior by D. K. Kamano, 271
Two methods of increasing response rate in free-operant avoidance conditioning by W. A. Hayes and R. C. MacKinnon, 275

REINFORCEMENT
Conditioned reinforcement: The effects of variation of stimulus duration by M. L. Cheal and R. L. Sprott, 1
"Time-out from positive reinforcement" as the UCS in a CER paradigm with rats by H. Leitenberg, G. J. Bertsch, and R. C. Coughlin, Jr., 3
Acquisition and extinction with rewarded goal box placements interpolated among training trials by A. J. North and D. F. Carl, 7
The effects of terminal food and water deprivation on the reinforcing properties of light-onset by J. T. Tapp, D. M. Mathewson, and P. Jarrett, 9
Running for stimulus change by R. B. May, 11
Third-order fixed-ratio schedules of reinforcement by G. Bigelow and T. Thompson, 13
Negative contrast after prolonged discrimination maintenance by G. S. Reynolds and A. J. Limpo (Vol. 10, pp. 323-324)

Comment on Reynolds and Limpo by I. L. Beale and A. S. W. Winton, 21
Reply to Beale and Winton by G. S. Reynolds, 22
Reinforcement and free feeding as antecedent conditions in a discrete trial discrimination by T. A. McCullough, 155
The preference of rats for a more difficult task by H. Friedman, R. M. Tarpy, and P. Komelski, 157
Facilitative effects of reward increase: An apparent "elation effect" by P. A. Meyer and J. H. McHose, 165
Shaping, auto-shaping and observational learning with rats by R. W. Powell, D. Saunders, and W. Thompson, 167
Intertrial reinforcement: A test of several hypotheses by E. J. Capaldi and N. B. Wilson, 169
Spatial probability learning in the Virginia opossum by J. H. Doolittle and J. Weimer, 191
Joint effects of magnitude of immediate reward and magnitude of delayed reward on acquisition and extinction by E. J. Capaldi, R. C. Godbout, and B. Downs, 277
A comparison of two delay of reward procedures, pre-reinforcement delay vs post-reinforcement delay by E. J. Capaldi, R. C. Godbout, and C. Ksir, 279
Secondary reinforcement effects of placement procedures in a runway situation by A. J. North, 281

EXTINCTION

A reinterpretation of extinction in discriminated avoidance by D. G. Davenport and R. D. Olson, 5
Response decrement as a function of extinction or shift in reinforcement schedule by J. E. Spivey, D. T. Hess, and D. Black, 143
The partial reinforcement effect after minimal acquisition: Single pellet reward by G. McCain, 151
Effect of several reward exposure procedures on the small trial PRE by R. C. Godbout, D. R. Ziff, and E. J. Capaldi, 153
Resistance to extinction as a function of nonresponse incentive shift by D. G. Davenport and J. H. Mueller (Vol. 10, pp. 243-244)
Erratum, 188

SOCIAL BEHAVIOR

Dominance behavior in socially isolated rats by I. L. Ward and A. A. Gerall, 39
Sex and dominance behavior in the rat by E. T. Uyeno and M. White, 192
